

GemStone Systems, Inc.

WEB EDITION SOFTWARE LICENSE AGREEMENT

This Agreement is between GemStone and Licensee, as each is defined below. Licensee's installation of the Software Products, execution of this Agreement or otherwise indicating Licensee's assent, indicates Licensee's acceptance of the terms and conditions of this Agreement. The scope of the license granted, as specified in this Agreement is defined in Section 2 below.

DEFINITIONS. As used in this Agreement:

"Deploy" means any use of the Software Products that is available to persons and/or systems outside of an internal development and/or test environment. Deployment includes internal use of the Software Products within an organization that is not solely for development or test purposes.

"GemStone" means GemStone Systems, Inc., an Oregon corporation, or when applicable, its subsidiary from which Licensee licenses the Software Products.

"Key File" means a form of computer code contained in the Software Products which enables the operation of the Software Products, yet limits the capacity and operation of the Software Products to values contained therein.

"License" means the license described in Section 2 below which GemStone has granted to Licensee.

"Licensee" means the entity or individual who installs the Software Products or otherwise agrees to be bound by the terms and conditions contained in this Agreement. Each individual entering this Agreement on behalf of an entity represents and warrants that he/she has the authority to bind the entity to the terms and conditions of this Agreement.

"License Term" means the time limit set forth in the definition of the License in Section 2, subject to the termination provisions of Section 10 of this Agreement.

"Software Products" means GemStone/S software downloaded or otherwise acquired by Licensee that may include software licensed from third parties. Software Products include all

updates and upgrades of Software Products provided to Licensee by GemStone and all modifications of the Software Products.

"Technical Data" means the published user manuals included with the Software Products, and any similar materials provided to Licensee by GemStone to supplement the published user manuals.

LICENSE TYPES

"Web Edition License" means a no-cost license to use the Software Products to develop and Deploy software applications for internal or commercial use subject to the limitations specified in the Key File included with the Software Products. Key Files which allow higher limitations require a different License.

"Evaluation License" means a temporary license to use the Software Products for evaluation and testing purposes only and not for internal Deployment or commercial use. Upon expiration of the time limit in the Key File Licensee will immediately cease use of the Software Products, delete the Software Products from all computer systems, and destroy all copies of the Software Products and all related evaluation materials. An Evaluation License does not include the right to Deploy the Software Products for any applications internally or externally.

LICENSE GRANT, AUDIT RIGHTS.

GemStone grants to Licensee a non-exclusive, non-transferable license, without right to sublicense, to install and use the Software Products and Technical Data for the License Term specified in their authorized Key File subject to the terms of this Agreement, including without limitation the general definitions set forth in Section 1 and the definition of the License as set forth in Section 2, and the capacity and operational limitations specified in their authorized Key File.

Licensee will keep accurate records of all activity with respect to its use of the Software Products, including, without limitation, all editions of the Software Products used. Licensee will provide GemStone with summaries of the records upon request. At any time during the term of this Agreement and for three years following termination of this Agreement, GemStone will have the right to audit Licensee's records in order to verify that Licensee is limiting use of the Software Products in accordance with its License for the Software Products and this Agreement. If any audit reveals that Licensee is not limiting use of the Software

Products in accordance with its License for the Software Products and this Agreement, Licensee will pay GemStone any unpaid or underpaid License Fees at GemStone's then current rates within five days of notification of the underpayment. If any audit reveals that Licensee owes GemStone an amount equal to or greater than five percent of License Fees actually paid by Licensee, Licensee will also reimburse GemStone for the costs associated with the audit.

OWNERSHIP. GemStone or its licensors retain title to, ownership of, and intellectual property rights in, the Software Products and Technical Data and all modifications thereto, including all copies thereof. No title to or ownership of the Software Products or Technical Data is transferred to Licensee.

PROPRIETARY NOTICES. Licensee will not remove or alter GemStone's or any third party's ownership, trademark, copyright, or other proprietary notices on the Software Products or Technical Data. Licensee must reproduce and include all copyright notices and other proprietary notices on each copy of the Software Products and Technical Data.

USE RESTRICTIONS.

Licensee will comply with all restrictions incorporated into the License as described in Section 2 and any Key File associated with the Software Product.

Except as expressly allowed under the terms of the License granted to Licensee, Licensee will not (a) modify, develop derivative works of, adapt, alter, or translate the Software Products (all such actions are "modifications" of the Software Products); (b) reverse engineer, decompile, disassemble or otherwise attempt to derive the source code of the Software Products; (c) use the Software Products except on equipment owned or leased by Licensee; (d) copy the Software Products or Technical Data except as permitted in the definition of the License, except Licensee will be permitted to create one copy of the Software Products for archival storage to assure against loss; (e) disclose the results of any software performance benchmarks involving the Software Products which are generated by Licensee or anyone else to any third party without the prior written consent of GemStone; or (f) allow the unauthorized use of the Software Products and Technical Data. Licensee will notify GemStone and pay any additional charges pursuant to GemStone's then current price list for any use of the Software Products that exceeds the use for which Licenses have been purchased. In no event will Licensee allow any third party to copy or access the Software Products or Technical Data.

No modifications of the Software Products are permitted, unless such rights are specifically set forth in the License type or otherwise granted in writing. In the event modifications or derivative works are permitted, all modifications of the Software Products will be deemed to be part of the Software Products, which may be used by Licensee only in accordance with this Agreement. GemStone will be the sole owner of any modifications to the Software Products. Licensee's right to modify the Software Products is conditioned upon the Licensee not incorporating with the Software Products any software that is licensed pursuant to terms that directly or indirectly create obligations for GemStone with respect to a modification thereof, or grant to any third party any rights to or immunities under GemStone's intellectual property or proprietary rights in the Software Products or a modification thereof. Software that is prohibited includes, without limitation, all software licensed pursuant to terms that require that software incorporated into, derived from, or distributed with such software be (a) disclosed or distributed in source code form, (b) licensed for the purpose of creating derivative works, or (c) redistributable at no charge.

Licensee acknowledges that no computer software is error free and that the Software Products were not designed for use with, and Licensee will not use the Software Products for, applications for which errors, bugs or malfunctions in the Software Products could cause personal injury or death, property or environmental damage, or economic loss, including, without limitation, use in hazardous environments requiring fail-safe performance, the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines, or weapons systems. Licensee will be solely responsible for taking all security precautions, such as data backup, testing and error detection procedures, which are necessary in order to ensure that errors in the Software Products and the applications using the Software Products do not cause adverse consequences.

KEY FILES. Licensee acknowledges that the Software Products contain Key Files that are a form of disabling code. For the purpose of this paragraph, "disabling code" means computer code which interferes with the normal operation of the Software Products in order to (a) prevent unauthorized use of the Software Products or (b) provide limited use of the Software Products. At the request of Licensee, GemStone will provide reasonable advice and assistance to Licensee with respect to any Key File in order to ensure that the existence of the code does not interfere with Licensee's authorized use of the Software Products. **LICENSEE WILL TAKE ANY NECESSARY PRECAUTIONS TO AVOID ANY LOSS OF DATA THAT MAY RESULT FROM EXPIRATION OF A KEY FILE TIME LIMIT.**

CONFIDENTIALITY.

The Software Products and Technical Data constitute highly valuable property of GemStone and contain trade secrets and confidential information owned by GemStone. Licensee acknowledges that it may receive from GemStone other confidential information which is marked as "confidential". Licensee will observe complete confidentiality with respect to the Software Products, Technical Data, all performance data and all information marked "confidential", and will not disclose this information to any third party, except its employees with a need for access to the information, or use the information for any purpose not contemplated or permitted under this Agreement. The obligations of confidentiality in this Section 7 will survive the termination or cancellation of this Agreement. Licensee will ensure that its employees and persons affiliated with Licensee who have access to the Software Products, Technical Data or GemStone's confidential information understand and acknowledge the obligations of confidentiality imposed in this Agreement, and are aware of and comply with the terms of this Agreement. Licensee will indemnify and hold GemStone harmless for any breach of this Agreement by an employee, former employee, or person affiliated with or formerly affiliated with Licensee.

Notwithstanding the foregoing, Licensee will have no obligation to hold any information in confidence to the extent that Licensee can show by documentary evidence that the information: (a) was already known to Licensee at the time it was obtained by Licensee from GemStone, free from any obligations to hold the information in confidence; (b) was or becomes publicly known through no wrongful act of Licensee; (c) was rightfully received from a third party without restriction and without breach of any obligation to GemStone or its suppliers; or (d) was independently developed by Licensee without use of any confidential information of GemStone or its suppliers.

TERM AND TERMINATION.

The term of this Agreement will commence upon the earliest of: (a) installation of the Software Products; or (b) written execution of this Agreement. This Agreement will terminate on the earliest of: (i) Licensee's breach of Sections 6 (Use Restrictions) or 8 (Confidentiality); (ii) the last day of the License Term or renewal term specified in a Key File; or (iii) a party's failure to remedy any default under this Agreement within 30 days of receipt of written notice from the other party specifying the default; provided, however, the cure period is not applicable to Licensee's failure to make timely payment.

Upon termination of this Agreement for any reason, all Licenses granted will terminate and Licensee will pay all unpaid amounts that have accrued prior to termination and will immediately cease use of and will return to GemStone and delete from all computer systems all copies of the Software Products and Technical Data. Upon GemStone's request, Licensee will submit a written certificate of compliance with this Section 9.2 signed by Licensee (if Licensee is an individual) or by an officer of Licensee (if Licensee is an entity).

SUPPORT. Maintenance and support for the Software Products must be purchased separately from GemStone.

WARRANTY; LIMITATION OF LIABILITY.

GemStone does not warrant that the Software Products are error free or that Licensee will be able to operate the Software Products without problems or interruptions. **Without limiting the preceding, Licensee accepts the Software Products AS IS with all faults.**

Nothing in this section will relieve Licensee of its obligation to pay any appropriate maintenance and support fees.

GEMSTONE'S TOTAL CUMULATIVE LIABILITY TO THE LICENSEE, IN CONTRACT, TORT OR OTHERWISE, FOR ALL DAMAGES, COSTS, CLAIMS, OR DEMANDS INCURRED OR SUFFERED BY OR AWARDED AGAINST LICENSEE ARISING DIRECTLY OR INDIRECTLY OUT OF THE PERFORMANCE OR ANY BREACH OF THIS LICENSE WILL IN NO EVENT EXCEED THE TOTAL AMOUNT PAID TO GEMSTONE BY LICENSEE UNDER THIS AGREEMENT.

THE WARRANTY CONTAINED IN SECTION 11.1 IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO, ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE, AND NONINFRINGEMENT OF THIRD-PARTY RIGHTS. GEMSTONE WILL NOT BE RESPONSIBLE TO LICENSEE OR TO ANY THIRD PARTY FOR ANY INDIRECT, SPECIAL, EXEMPLARY, INCIDENTAL OR CONSEQUENTIAL DAMAGES, WHETHER IN CONTRACT OR TORT, DUE TO ANY FORESEEN OR UNFORESEEN CAUSE FROM LICENSEE'S OR ANY THIRD PARTY'S USE OR THE PERFORMANCE OF THE SOFTWARE PRODUCTS UNDER THIS AGREEMENT.

INDEMNITY BY LICENSEE. Licensee acknowledges that GemStone has no knowledge of, or control over, the use of the Software Products by Licensee. Licensee will defend, indemnify and hold GemStone harmless with respect to any suit, claim or proceeding brought against GemStone alleging that use of the Software Products by, or under authority of, Licensee or Licensee's current or former employees, consultants, or agents caused personal injury, property damage, or economic loss. In addition, Licensee will defend, indemnify and hold GemStone harmless with respect to any suit, claim or proceeding brought against GemStone due to Licensee's modification of any Software Product.

GENERAL.

This Agreement and other documents referred to in this Agreement constitute the entire agreement between the parties and supersede all prior or contemporaneous agreements or representations, written or oral, concerning the subject matter of this Agreement. The parties may amend this Agreement only by a written instrument stating an intention to modify and signed by both parties.

Failure by either party at any time to require performance or to claim a breach of any term or condition of this Agreement will not be construed as a waiver of that term or condition affecting the right to require performance or to claim a breach.

Licensee may not assign this Agreement without the prior written permission of GemStone.

If any provision in this Agreement may be held to be invalid or unenforceable, the meaning of that provision will be construed so as to render it enforceable to the extent feasible. If no feasible interpretation would save that provision, it will be severed from this Agreement and the remainder will remain in full force and effect. However, in the event that provision is considered an essential element of this Agreement, the parties will promptly negotiate alternative, reasonably equivalent and enforceable terms.

For all agreements between GemStone and Licensee, the rights and obligations of the parties and all interpretations and performance of the agreements will be governed in all respects by the laws of the State of Oregon without regard to their conflict of law provisions. The United Nations Convention on Contracts for the International Sale of Goods does not apply to this Agreement. Each party irrevocably consents to the jurisdiction and venue of any federal

or state courts located in Multnomah County, Oregon in any proceeding or action arising from or relating to this Agreement.

Section headings are inserted for convenience only and will not be used in any way to construe the terms of this Agreement.

In the event that suit or other action is instituted to interpret or enforce this Agreement, the prevailing party will be entitled to recover its attorney fees, including those incurred on appeal, as determined by the court.

This Agreement is expressly made subject to any laws, regulations, orders or other restrictions on the export of software products from the United States of America which may be imposed by the government of the United States of America from time to time. Licensee may not export, reexport, directly or indirectly, the Software Products to any country for which the United States government, any agency of the United States government or any foreign government requires an export license or other governmental approval at the time of export or reexport without first obtaining the required license or approval. Licensee will indemnify and hold GemStone harmless for any breach of this Section. Licensee warrants that it is not domiciled in, a citizen, national or resident of, and is not under the control of the government of Cuba, Iran, Iraq, Libya, North Korea, Syria, Sudan, or any other country or any distributee to which the United States has prohibited export.

All notices permitted or required by this Agreement will be delivered in a manner in which a receipt is obtained, including confirmed facsimile, to the headquarters office of GemStone and to Licensee at the location to which the Software Products were delivered.

If Licensee is a branch or agency of the United States Government, whether that unit or agency be civilian or part of the Department of Defense, this provision applies. The Software Products and Technical Data are comprised of "commercial computer software" and "commercial computer software documentation" as such terms are used in 48 C.F.R. 12.212 and are provided to the Government consistent with 48 C.F.R. 12.212 and 48 C.F.R. 227.7202-1 through 227.7202-4. Except as otherwise specifically provided for in this Agreement, the Software Products and Technical Data may not be used, reproduced or disclosed to anyone, including support service contractors or their subcontractors, by the Government without the prior written consent of GemStone, such consent may be freely withheld at GemStone's own discretion. The restrictions in this provision are in addition to, and not in lieu of, any other restrictions contained in or incorporated by this Agreement.
